DR-422

In combination with a router, the Internet radio DR-422 receives more than 25,000 radio stations from all over the world. The device can be connected to a stereo system or a speaker system to upgrade the sound. It features a large colour display with easy-to-use menu navigation.

The display also shows interesting additional information, e.g. 5-day weather forecast for 500 German cities. An app allows home networking via DLNA: Thus, it is possible to operate the DR-422 via smartphone as well as to transmit and play music stored on smartphone or tablet.

Internet radio,
