

IP67

PSIP-60/12

Order No.: 0273430

PRODUCTINFOS

LED switch-mode power supply, DC 12 V,

for indoors and outdoors (IP67).

- Especially for LED installations
- 60 W
- Due to automatic digital switching, ideally suited for small loads, e.g. individual LED strips
- Low-noise according to EMC standard EN 61000-3-2 class C
- Active PFC filter
- Protected against short circuit, overload and overvoltage
- Connection via bare cable ends
- Robust plastic housing with mounting flange

TECHNICAL SPECIFICATIONS

PSIP-60/12

Category

LED switch-mode power supply

PSIP-60/12

Input voltage	~ 100-240 V/ 50 Hz/60 Hz
Output voltage	DC 12 V
Output current	5 A
Short-circuit protection	yes
Overload protection	yes
Overheat protection	yes
Protective class	IP67
Admiss. ambient temp.	-20-+50 °C
Dimensions	200 x 41 x 32 mm
Weight	411 g
Position	A
