

# PSS-1000USB

Order No.: 0273330

## PRODUCTINFOS

### Switch-mode power supply, 1 A,

with plug-in adapters and additional USB output adapter.

- High energy efficiency, complies with EU ecodesign directive
- Saves electricity costs due to low power consumption in standby mode ( $< 0.3 \text{ W}$ )
- Switchable output voltage
- Compact lightweight design
- Protected against short circuit, overload and overheating
- Power LED
- 1.8 m connection cable
- Selectable polarity by reversing the supplied adapters
- 8 plug-in adapters: USB Type-A jack, plugs: 2.5 mm, 3.5 mm, hollow plugs: 2.35/0.75 mm, 3.5/1.35 mm, 5.0/2.1 mm, 5.5/2.1 mm, 5.5/2.5 mm

## TECHNICAL SPECIFICATIONS

**PSS-1000USB**

|                          |                                  |
|--------------------------|----------------------------------|
| Category                 | switch-mode power supply         |
| Input voltage            | ~ 100-240 V/50-60 Hz/<br>250 mA  |
| Output voltage           | DC 3/4.5/5/6/7.5/9/12 V          |
| Output current           | 1 A                              |
| Connections              | plug-in adapter, USB inline jack |
| Cable length             | 1.8 m                            |
| Short-circuit protection | yes                              |
| Overload protection      | yes                              |
| Overheat protection      | yes                              |
| Admiss. ambient temp.    | 0-40 °C                          |
| Dimensions               | 43 x 53 x 76 mm                  |
| Weight                   | 109 g                            |
| Other features           | eco                              |
