PRODUCTINFOS

Bluetooth audio receiver

Turn your favourite speaker or music system into a wireless sound system. The wireless speaker adapter for Bluetooth audio equipment from Logitech uses a wireless Bluetooth connection for streaming music or other audio material from your smartphone or tablet PC.

- Audio streaming directly from your Bluetooth device
- Multipoint Bluetooth (simultaneous pairing of 2 units)
- Enjoy a great sound and the freedom of movement due to wireless operation
- Almost any active speaker can be used
- LED for status indication
- Supplied with wireless audio streamer, plug-in power supply, audio cable (RCA to 3.5 mm stereo plug)
- Min. system requirements: active speaker/amplifier with RCA or 3.5 mm input, computer, mobile phones and tablet PCs with wireless Bluetooth audio profile (A2DP)
