

## JA-120PC

Order No.: 04.4480

**Price upon request**

### PRODUCTINFOS

**Bus PIR motion detector,**

with built-in camera.

- Matching the JA-100 system
- For indoor surveillance and protection
- Motion detection via passive infrared sensor
- The integrated camera takes coloured images in JPEG format with a resolution of 640 x 480 pixels for a visual alarm confirmation
- The images are stored on the 4 GB internal micro SD memory card of the detector and passed on in a compressed format to respective receivers, e.g. an ARC, an external storage medium or by SMS via the connected alarm control panel
- Level of resistance to false alarms can be adjusted in 2 steps
- PIR detection range: 110°/12 m
- Camera detection range: 55°/12 m
- Mounting height: 2.5 m above the floor
- Visible flash for recordings in the dark
- Tamper switch

## **TECHNICAL SPECIFICATIONS**

### **JA-120PC**

Description	wireless PIR motion detector
Admiss. ambient temp.	-10-+40 °C
Power supply	via bus of the control panel, current consumption in standby: 5 mA
Dimensions	60 x 110 x 55 mm
Weight	106 g
